Tag: At the end of walls 2 & 4 (facing 6 & 12 respectively) add 4 hip sways

1-4 Step R to right and sway hips R,L, R, L (weight ends on left)

The Finish: the beat fades during counts 9-16, continue to dance through to counts 26 at usual tempo-

Then making a 1/4 turn left step L back and draw R to left (Tah Dah you are facing 12 and have time for a wee pose)

I hope you enjoy this most beautiful piece of music; it has been my pleasure to make this dance for you
